## DETAILED ACTION

### *Allowable Subject Matter*

Claims 1-3, 6-8 and 11-12 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a method and system for preventing unauthorized use of digital content. Each independent claim identifies the uniquely distinct features of "a generation section that, on the basis of a medium ID recorded as identification information unique to the recording medium, generates an additional ID related to the medium ID; and a recording section that records the data, encrypted by Said encryption section, on the recording medium along with the additional ID, said recording section records the encrypted data and the additional ID on the recording medium as a single data file; and a display section that visually displays, as a single data file, the encrypted data and the additional ID recorded on the recording medium". The closest prior arts, Hoshino et al (US 5,148,416) and Barnard et al (US 20020141583), each disclose systems for preventing unauthorized use of content on a medium but both fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
